### PROFESSIONAL SUMMARY

Full Stack Developer with 5+ years of experience delivering production-ready web and mobile applications at scale. Completed 100+ projects across multiple domains using Laravel, Flutter, React Native, MERN Stack, and SwiftUI. Hands-on ownership from architecture, backend logic, and API design to frontend development, mobile deployment, and maintenance. Led technical execution on 10+ projects, driving code quality, delivery speed, and system reliability. Proficient in building scalable backends, cross-platform mobile apps, and responsive web applications with payment integrations, real-time features, and cloud deployments.

### TECHNICAL SKILLS

Laravel / PHP	Advanced	Flutter / Dart	Advanced

Node.js / Express.js	Advanced	JavaScript / TypeScript	Advanced
MongoDB / MySQL / PostgreSQL	Advanced	SwiftUI / iOS Native	Intermediate
Firebase / Supabase	Advanced	Stripe / In-App Purchases	Advanced
REST API / GraphQL	Advanced	Git / CI-CD / AWS / Vercel	Advanced
App Store & Play Store Deployment	Advanced	AI Integration / OpenAI API	Advanced

### WORK EXPERIENCE

- **Senior Full Stack Developer – Mercury Sols** ————— Jul 2023 – Present  
Rahim Yar Khan, Pakistan
  - Lead full-stack development for 50+ web and mobile applications using Laravel, Flutter, React Native, React.js, Node.js, and SwiftUI.
  - Built AI-powered platforms, e-commerce solutions, and cross-platform mobile apps with Stripe payments, real-time features, and cloud deployments.
  - Designed RESTful APIs, managed databases (MySQL, MongoDB, PostgreSQL), and deployed apps to App Store, Play Store, Vercel, and AWS.
  - Mentored junior developers across web and mobile teams. Earned 2 performance awards (Rising Star, Bug Buster).
- **Full Stack Developer – DevFinix (Project-Based)** ————— Nov 2022 – Present  
Remote – Project-Based
  - Worked on 10+ real-world projects across web and mobile, contributing to architecture, development, and delivery.
  - Successfully deployed multiple production apps to Google Play Store, Apple App Store, and cloud platforms for international clients.
- **React / JavaScript Developer – InvestLoft.club** ————— Jul 2023 – Feb 2025  
Remote
  - Delivered 8+ web projects including the company's main website using React.js, JavaScript, and Node.js.
  - Improved UI quality and stability by fixing 100+ bugs and enhancing responsiveness, resulting in 60%+ improvement in usability.
- **Full Stack Web Developer – Freelance** ————— Jan 2021 – Present  
Remote
  - Delivered 20+ full-stack web and mobile projects for international clients using Laravel, Flutter, React Native, React.js, and Node.js.
  - Handled full project lifecycle from architecture and development to App Store/Play Store deployment and post-launch maintenance.

● **LoopJam** ----- App Store & Play Store

Events & Media | Flutter, Dart, Firebase, Camera API

[App Store](#) [Play Store](#)

- Built a real-time photo and video sharing platform for group events (weddings, festivals, gatherings) using Flutter.
- Implemented media capture, organized album collections, event-based sharing, and Firebase-powered real-time sync.

● **SYNZUR** ----- Mercury Sols – Completed

Project Management | React.js, Node.js, Drag & Drop

[Website](#)

- Built a project management tool enabling teams to collaborate, assign tasks by role, and prioritize work using drag-and-drop features.
- Implemented role-based access control, real-time task updates, visual Kanban boards, and team collaboration features.

● **Nutridiet** ----- Play Store

Health & Fitness | Laravel, Flutter

[Play Store](#) [Admin Panel](#)

- Created a personalized nutrition and fitness app with expertly designed meal plans and nutritious recipes collection.
- Built both admin panel (Laravel) and mobile app (Flutter) for complete health and wellness tracking.

## EDUCATION

● **Bachelor in Software Engineering** ----- Oct 2020 - Jun 2024

- Top-ranked Software Engineering graduate from IUB with a 3.98/4.00 CGPA and expected Gold Medalist. Strong foundation in software development with proven academic excellence.
